

ADSY Technologies

Company Policies

Refund Policy

ADSY Technologies is committed to client satisfaction. This policy outlines the circumstances under which refunds are issued for our services.

Eligibility for Refunds

- Full refund: If work has not yet begun (before the discovery/kickoff phase is completed), a full refund of the advance payment is issued, minus any applicable payment processing fees.
- Partial refund: If a project is cancelled after work has started but before the first milestone is delivered, a partial refund is issued based on work completed, assessed by our project management team.
- No refund: Once a milestone has been delivered and approved by the client, payments tied to that milestone are non-refundable, as the corresponding work has been completed and delivered.

Refund Process

- Submit a refund request in writing to support@adsytechnology.com with your project reference number.
- Our team reviews the request within 5 business days and determines eligibility based on project status.
- Approved refunds are processed within 10-14 business days to the original payment method.
- Maintenance plan subscriptions can be cancelled anytime; unused days in the current billing cycle are not refunded, but no further charges apply after cancellation.

Cancellation Policy

Clients may cancel an ongoing project or service engagement subject to the terms below.

Project Cancellation

- Written notice of cancellation must be sent to your assigned project manager or to support@adsytechnology.com.
- Any work completed up to the cancellation date is billable according to the agreed payment milestones.
- Source files and work-in-progress deliverables completed and paid for will be shared with the client upon cancellation.

Maintenance Plan Cancellation

- Maintenance plans can be cancelled anytime with at least 15 days' written notice before the next billing cycle.
- No cancellation fees apply. Access to plan benefits continues until the end of the current paid cycle.

Privacy Policy

ADSY Technologies respects the privacy of our clients and website visitors. This section summarizes how we collect, use, and protect information shared with us.

Information We Collect

- Contact information provided through inquiry forms, emails, or calls (name, email, phone number, company name).
- Project-related information shared during discovery calls and throughout project execution.
- Basic website usage data (via analytics tools) for improving our website experience.

How We Use Information

- To respond to inquiries and provide requested services or quotes.
- To deliver, manage, and support ongoing projects and maintenance plans.
- To send project updates, invoices, and relevant service communications.
- We do not sell or rent client information to third parties.

Data Security

We take reasonable technical and organizational measures to protect client data, including access controls and secure storage practices. Project-specific data (source code, credentials, business documents) is handled under confidentiality obligations and, where applicable, formal NDAs.

Service Policy

This policy outlines the general terms under which ADSY Technologies delivers its services.

- All projects begin with a discovery phase to define scope, deliverables, and timeline before formal work begins.
- Deliverables are defined in a written proposal or Statement of Work (SOW), agreed upon by both parties before project kickoff.
- Any request outside the originally agreed scope is treated as a change request, which may affect timeline and cost, and requires client approval before implementation.
- Clients are expected to provide timely feedback and required materials (content, credentials, brand assets) to avoid project delays.
- Final deliverables are provided only after full payment as per the agreed payment schedule.

Support Policy

Support is provided differently depending on whether you have an active maintenance plan or are within the post-launch warranty period.

- Post-launch warranty: A 30-day bug-fix warranty is included after project delivery at no extra cost, covering defects in the delivered work (not new feature requests).

- Active maintenance plan clients: Support is provided according to plan tier (Basic, Standard, Premium) as detailed in our Pricing document, including defined response time expectations.
- Clients without an active maintenance plan: Support requests are handled on a case-by-case, billable basis at our standard hourly rate.
- Support requests should be submitted via support@adsytechnology.com with a clear description of the issue, and screenshots or steps to reproduce where applicable.

For questions about any policy above, contact us at support@adsytechnology.com or +91 771 400 2200.
