

ADSY

Adsy Company Information

Knowledge Base • Effective Date: August 13, 2026

Company Overview

Adsy is a technology services company focused on modern digital products and technology solutions.

Mission

Adsy aims to help businesses improve customer experience, automate repetitive work, increase operational efficiency, and build reliable digital products.

Core Capabilities

Software development, AI and machine learning, automation, cloud services, UI/UX design, cybersecurity, deployment, integration, maintenance, and technical support.

About Adsy

Adsy works with startups, small businesses, and growing organizations to design and develop digital products.

How We Work

Discovery and requirements → planning → design/architecture → development → testing → deployment → handover → support.

Engagement Models

Projects may be delivered as fixed-scope projects, milestone-based engagements, dedicated development support, or ongoing maintenance.
