

ADSY

Adsy Frequently Asked Questions

Knowledge Base • Effective Date: August 13, 2026

General FAQ

Q: What is Adsy?

A: Adsy is a technology services company providing software, AI, cloud, design, security, and support solutions.

Q: How do I start a project?

A: Contact sales with your goals, features, timeline, and budget.

Q: Do you provide custom solutions?

A: Yes. Solutions can be tailored to customer requirements.

Q: Do you provide post-launch support?

A: Yes, through applicable maintenance or support plans.

Technical FAQ

Q: Which technologies do you use?

A: Technology selection depends on project requirements.

Q: Can you integrate APIs?

A: Yes, when supported by the external service and requirements.

Q: Do you provide deployment?

A: Deployment can be included in project scope.

Q: Can you maintain an existing application?

A: Yes, after technical assessment and scope confirmation.

Billing FAQ

Q: How is pricing calculated?

A: Based on scope, complexity, resources, timeline, integrations, and support.

Q: Are taxes included?

A: The final quotation should clearly state applicable taxes.

Q: Can I request a refund?

A: Refund eligibility depends on the applicable refund policy and project status.

Q: What happens if I cancel?

A: Cancellation consequences depend on timing and completed work.

Service FAQ

Q: Can requirements change after development starts?

A: Yes, but changes may affect scope, cost, and timeline.

Q: How long does a project take?

A: Timeline depends on scope and is confirmed after requirements.

Q: Do you provide documentation?

A: Documentation can be included as agreed.

Q: Do you offer emergency support?

A: Emergency support depends on the selected support plan and SLA.
